Brand New Book ***** Print on Demand *****.Excerpt from **Endocrine Glands and the Sympathetic System** There is no subject in medicine at the present time which has aroused such a widespread interest as endocrinology. The reason for this is obvious. In practically every specialty, be it internal medicine, surgery, gynecology, neurology or pediatrics, our knowledge of this subject is increasing daily and finding new applications. At first our use of the endocrines was limited to such applications as thyroid in cretinism, or pituitrin to stimulate labor pains. We now know that there are numerous grades and varieties of disturbances of the glands of internal secretion giving rise to many troublesome symptoms and pathological conditions, which could not very well be relieved by our common therapeutic measures. Many of these conditions are now amenable to treatment by means of glandular extracts. A few examples are sufficient to illustrate this: The improvement of certain persistent cases of enuresis or what at one time seemed to be ordinary cases of epilepsy by means of pituitrin; the relief of asthenia following acute infections by the administration of suprarenalin; the benefit derived from thyroid, thymus, pituitary or ovarian extracts in gynecological conditions; the variety of obscure skin conditions which have been cleared up by giving one or more of the glandular extracts, and many more could be added to this list. The remarkable feature of this method of treatment is that it can be both symptomatic and curative in its action. This does not mean of course that all body ailments can be treated by the administration of glandular extracts, but a great many can be helped. About the Publisher Forgotten Books publishes hundreds of thousands of rare and...
