Createspace Independent Publishing Platform, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.When astronomers spot a massive, rogue, deep space object approaching Earth a series of mind-bending decisions have to be made to try to save the planet from an unimaginably brutal attack. But the attack is on Earth s precious, last remaining energy reserves, not on man. The locust-like alien s planet stripping destruction soon reveals man s over-reliance on the Earth s natural resources of crude oil, atomic and metal ores. Why did the military not use a secret global defence system, ERASE, that may have avoided the contact? As the military attempt to fight back they eventually realize it is a battle they simply cannot win, and it s about to get worse. As the world is pushed to edge of annihilation and socio-economic collapse Carl Myers, head astronomer, proposes a last resort plan using a unique but untested technology that is so dangerous that it itself could wipe-out our planet and all life on Earth. In a high risk mission with the entire world at stake, Space Shuttle teams create the most awe inspiring and frightening doomsday-like act before it s too late. Will man risk the world to save the world? Paul Michael Brown s debut science fiction book is an epic, innovative and action packed story with heart ripping heroism and a smart battle of ingenuity on an unprecedented huge scale of tension and destruction on planet Earth. Hold on tight; the world is about to change.
