Reviews

Undoubtedly, this is actually the finest work by any writer. It is really basic but excitement within the fifty percent of your publication. Your way of life period is going to be enhance as soon as you comprehensive looking over this ebook.

(Matt Maggio)

PRIVACY AND IDENTITY MANAGEMENT FOR LIFE: 5TH IFIP WG 9.2, 9.611.4, 11.6, 11.7 PRIMELIFE INTERNATIONAL SUMMER SCHOOL, NICE, FRANCE, SEPTEMBER 7-11, 2009, REVISED SELECTED PAPERS

Springer. Hardcover. Book Condition: New. Hardcover. 316 pages. Dimensions: 9.4in. x 6.3in. x 0.9in. New Internet developments pose greater and greater privacy dilemmas. In the Information Society, the need for individuals to protect their autonomy and retain control over their personal information is becoming more and more important. Today, information and communication technologies and the people responsible for making decisions about them, designing, and implementing them scarcely consider those requirements, thereby potentially putting individuals' privacy at risk. The increasingly collaborative character of the Internet enables anyone to compose services and contribute and distribute information. It may become hard for individuals to manage and control information that concerns them and particularly how to eliminate outdated or unwanted personal information, thus leaving personal histories exposed permanently. These activities raise substantial new challenges for personal privacy at the technical, social, ethical, regulatory, and legal levels: How can privacy in emerging Internet applications such as collaborative scenarios and virtual communities be protected? What frameworks and technical tools could be utilized to maintain life-long privacy? During September 30, 2009, IFIP (International Federation for Information Processing) working groups 9.2 (Social Accountability), 9.611.7 (IT Misuse and the Law), 11.4 (Network Security) and 11.6 (Identity Management) held their 5th International Summer School in cooperation with the EU FP7 integrated project PrimeLife in Sophia Antipolis and Nice, France. The focus of the event was on privacy and identity management for emerging Internet applications throughout a person's lifetime. The aim of the IFIP Summer Schools has been to encourage young academic and industry entrants to share their own ideas about privacy and identity management and to build up collegial relationships with others. As such, the Summer Schools have been introducing participants to the social implications of information technology through the process of informed discussion. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
